ABOUT ME

Product designer with 10+ years owning UX strategy for B2B SaaS across SMB and enterprise customers. I own product domains across multiple features and products, setting design direction for two development teams. I build research backed roadmaps, lead design system work used across the products, and use AI tools in my own design practice to speed up research synthesis and prototyping.

SKILLS

PLATFORM & SYSTEMS
Design Systems | Systems Thinking | Information Architecture | Multi-Surface Platforms

STRATEGY & AI
Design Direction | UX Strategy | AI-Assisted Workflows | Roadmap & Prioritization

WORK EXPERIENCE

Senior Product Designer — 2022- Present
Keap/Thryv

Keap (Acquired by Thryv) is a leading SaaS company that empowers small businesses with sales and marketing automation solutions.

- **UX Strategy & Leadership:** Lead UX for two development teams, shaping the design strategy for landing pages, email automation, and forms, increasing engagement.
- **Research & Data-Driven Design:** Own the research, design, and testing process, ensuring every decision is backed by data and user insights.
- **Cross-Functional Collaboration:** Work closely with PMs and PMMs to align UX with business goals and go-to-market strategies.
- **Design Systems & Consistency**: Drive design system improvements, enhancing efficiency and maintaining consistency across products.
- **Goal & Alignment:** Facilitate UX workshops with leadership, developers, and product teams, ensuring strategic alignment and cross-team collaboration.
- **Team Growth & Mentorship:** Mentor junior designers while also leading UX team meetings and supporting the Design Manager in process improvements and strategy.

Senior UX/UI Designer — 2020- 2022
Blue Raster

Blue Raster is a digital agency specializing in data visualization and geospatial solutions for government and enterprise clients.

- **End-to-End Product Design:** Led UX/UI design from research to implementation for multiple client projects, improving user adoption.
- **Client Collaboration & Stakeholder Management:** Worked closely with government agencies and enterprise clients to translate complex needs into intuitive solutions.
- **Team Leadership & Process Optimization:** Partnered with designers and developers to streamline design workflows, ensuring consistency.

Product Designer — 2017- 2020
Allego

Allego is an enterprise learning platform focused on sales enablement and team collaboration. Developed expertise in enterprise UX and research, contributing to the design of sales enablement tools. Collaborated with senior designers and engineers to refine product experiences.
